OCT 20 2003

Technology Center 2600

For: COMMUNICATION DEVICE, COMMUNICATION DEVICE SET,
AUTHENTICATION METHOD AND METHOD OF WIRELESS-CONNECTING
TERMINALS

**INFORMATION DISCLOSURE STATEMENT
UNDER 37 C.F.R. §§ 1.97 and 1.98**

Commissioner for Patents
P.O. Box 1450
Alexandria, VA 22313-1450

Sir:

In accordance with the duty of disclosure under 37 C.F.R. § 1.56, Applicant hereby notifies the U.S. Patent and Trademark Office of the documents which are listed on the attached PTO/SB/08 A & B (modified) form and/or listed herein and which the Examiner may deem material to patentability of the claims of the above-identified application.

One copy of each of the listed documents is submitted herewith.

1. Japanese Patent No. 7327089, published December 12, 1995.
2. Japanese Patent No. 729694, published February 6, 1995.
3. Japanese Patent No. 1117790, published January 22, 1999.

INFORMATION DISCLOSURE STATEMENT
U.S. Appln. No.: 09/745,808

The present Information Disclosure Statement is being filed: (1) No later than three months from the application's filing date for an application other than a continued prosecution application (CPA) under §1.53(d); (2) Before the mailing date of the first Office Action on the merits (whichever is later); or (3) Before the mailing date of the first Office Action after filing a request for continued examination (RCE) under §1.114, and therefore, no Statement under 37 C.F.R. § 1.97(e) or fee under 37 C.F.R. § 1.17(p) is required.

In compliance with the concise explanation requirement under 37 C.F.R. § 1.98(a)(3) for foreign language documents, Applicant encloses herewith a copy of a corresponding Japanese Office Action dated July 29, 2003, and an English-language of the pertinent portions thereof, which cites such documents and indicates the degree of relevance found by the foreign patent office.

The submission of the listed documents is not intended as an admission that any such document constitutes prior art against the claims of the present application. Applicant does not waive any right to take any action that would be appropriate to antedate or otherwise remove any listed document as a competent reference against the claims of the present application.

INFORMATION DISCLOSURE STATEMENT
U.S. Appln. No.: 09/745,808

The USPTO is directed and authorized to charge all required fees, except for the Issue Fee and the Publication Fee, to Deposit Account No. 19-4880. Please also credit any overpayments to said Deposit Account. A duplicate copy of this paper is attached.

Respectfully submitted,

J. Frank Osha

Ref Q62445

- Claims: 1
- Cited Literature: 1 and 2
- Remarks:

Cited Literature 1 describes a communication device that can be freely inserted and removed from the slot of a personal computer.

Cited Literature 2 describes coloring the terminator case in accordance with the terminator type, and making the color of said case visible from outside even when it is inserted into a connector inside a base opening.

Moreover, considering the fact that the configuration of a device inserted into a slot is described in both Cited Literature 1 and 2, employing what is described in Cited Literature 2 in the communication device described in Cited Literature 1 and applying a color in accordance with the function or type of the communication terminal and making it visible from outside is something that could be easily accomplished by a person skilled in the art.

- Claims: 2
- Cited Literature: 1 and 2
- Remarks:

The device described in Cited Literature 1 comprises a wireless unit suitable for cellular telephone service.

Moreover, considering the fact that the configuration of a device inserted into a slot is described in both Cited Literature 1 and 2, employing what is described in Cited Literature 2 in the communication device described in Cited Literature 1 and applying a color in accordance with the function or type of the communication terminal and making it visible from outside is something that could be easily accomplished by a person skilled in the art.

- Claims: 3
- Cited Literature: 1 and 2
- Remarks:

The device described in Cited Literature 1 comprises information necessary for connecting to a line.

- Claims: 4
- Cited Literature: 1 and 2
- Remarks:

Cited Literature 1 describes a communication device that can be freely inserted and removed from a slot of a personal computer, and it was well known prior to the filing of the present application that such communication devices were used in various communication modes and that various manufacturers provided various services for such communication devices.

Cited Literature 2 describes coloring the terminator case in accordance with the terminator type, and making the color of said case visible from outside even when it is inserted into a connector inside a base opening.

Moreover, considering the fact that the configuration of a device inserted into a slot is described in both Cited Literature 1 and 2, employing what is described in Cited Literature 2 in the communication device described in Cited Literature 1 and applying a color in accordance with the
